

# PRODUKTION2030

Swedish platform for Industry 4.0

**Cecilia Warrol**  
*Programme Director*

HUVUDMAN:

Teknikföretagen

GRUNDARE:

swerea  
swedish research

The Swedish  
Production Academy

CHALMERS

Med stöd från

VINNOVA  
Sveigs Innovationsmyndighet

Energimyndigheten

FORMAS

Strategiska  
Innovations-  
program

# The Swedish Manufacturing Industry

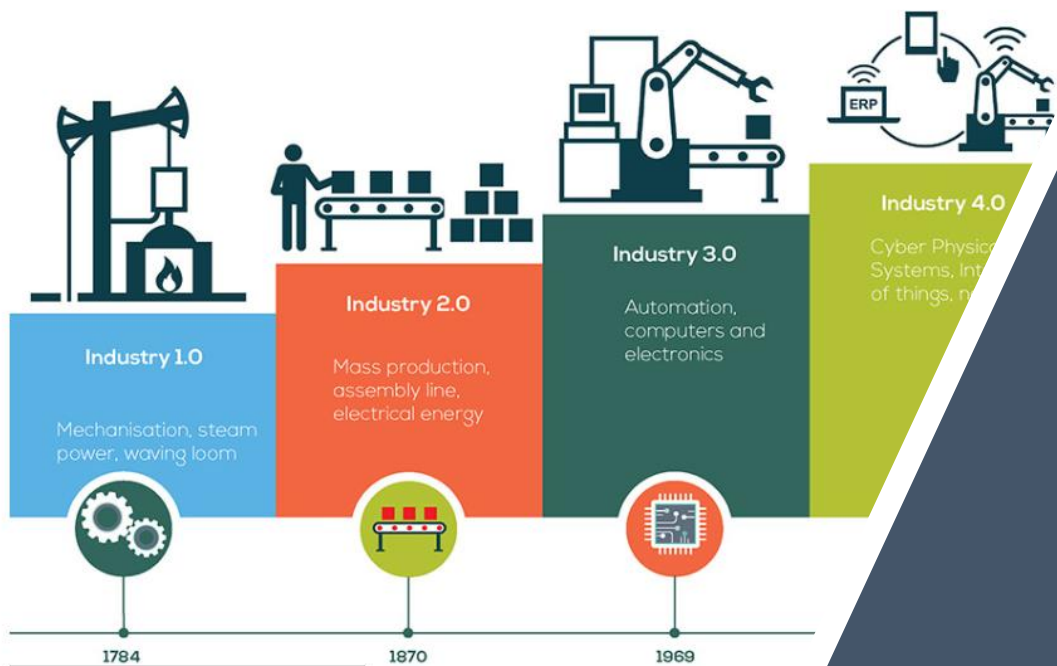

72%  
Export Goods

1 000 000  
jobs

42%  
R&D

90%  
SME:s

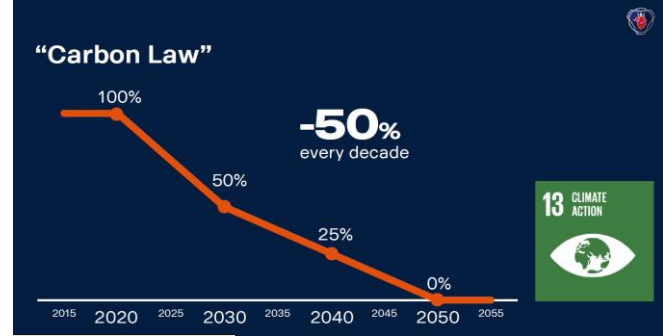

Major trends affecting Swedish manufacturing industry

# New ambitious climate goals...

- 90% circular business models
- Decrease CO<sub>2</sub> by 50%
- No personal injuries
- Ethics and transparency

- 25% CO<sub>2</sub> decrease
- 15% cost cut thru electrification
- Educate all staff in sustainability
- Continuous improvements

**Vision:** Increased competitiveness and sustainability in Swedish manufacturing industry

**Goal:** Increase collaboration between industry, academia and research institutes

Facts: Produktion2030 is a national innovation program, funded by **Vinnova**. Timeline: 2013 – 2025. Budget: 50 MEuro

# Produktion2030: priority challenges in manufacturing industry

Resource-efficient production

Flexible production

Virtual production development

Humans in the  
production system

Circular production systems  
and maintenance

Integrated product  
and production development

# Areas of strength in Produktion2030

## Resource-efficient production

**Industry challenge:** To minimise the resource consumption and environmental impact of production systems and products.

## Flexible production

**Industry challenge:** To further develop manufacturing processes to keep pace with the products of the future.

## Virtual production development

**Industry challenge:** To convert information and data into knowledge and input for decision-making in virtual and physical production systems.

## Humans in the production system

**Industry challenge:** To strengthen cooperation between humans and automation in order to enhance people's performance and increase productivity and flexibility.

## Circular production systems and maintenance

**Industry challenge:** To develop competence and service-based products.

## Integrated product and production development

**Industry challenge:** To strengthen product development processes and tools for innovative product development.

# Produktion2030: four instruments

## Projects:

TRL: 7-8

Testbed projects

TRL: 5-7

Innovation projects

TRL: 3-4

Idea projects

## Education:

PhD School

Engineer 4.0

## SME:s

Technology Workshops

SME-based courses

## Analysis & Internationalisation

EU networks and platforms

International collaborations

International production

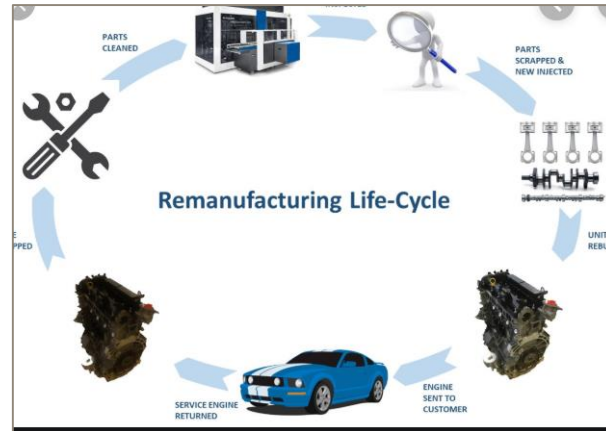

# Examples from Produktion2030

# Projects

# Testbed @ABB, Västerås, Sweden

Testbed @ABB:

[Process Automation](#) for Discrete Manufacturing, PADME

# Education

## 1. Produktion2030 PhD school

- 19 universities
- 200 students
- Focus on collaboration with industry
- Produktion2030 developed >30 new courses:
  - Internationell produktion
  - Produktdesign för cirkulära affärsmodeller
  - Produktionsinnovation

# Education

## 2. Engineer 4.0

- 12 Course modules in Industry 4.0
- Dual use:
  - university teaching
  - industry adult education/life long learning

Education Area
Smart Products and Industrial Internet of Things
Cyber Physical Systems and Digital Twins
Connectivity, 5G and Cloud Communication
Autonomous Robots
Additive Manufacturing
Human Robot Collaboration
Big Data, Machine Learning and Sensors
Management of Manufacturing Digitalization
Virtualization, Augmented Reality and Virtual Reality Interfaces
Standards and interoperability in Digitized Industry
Cyber Security, Industrial Data Protection and Data integrity
Global Production, Digital Supply Chains and Horizontal integration

# Small and medium sized enterprizes (SME:s)

- Project results - > Tech workshops
- Generating new projects and new collaborations

# Analysis and internationalization

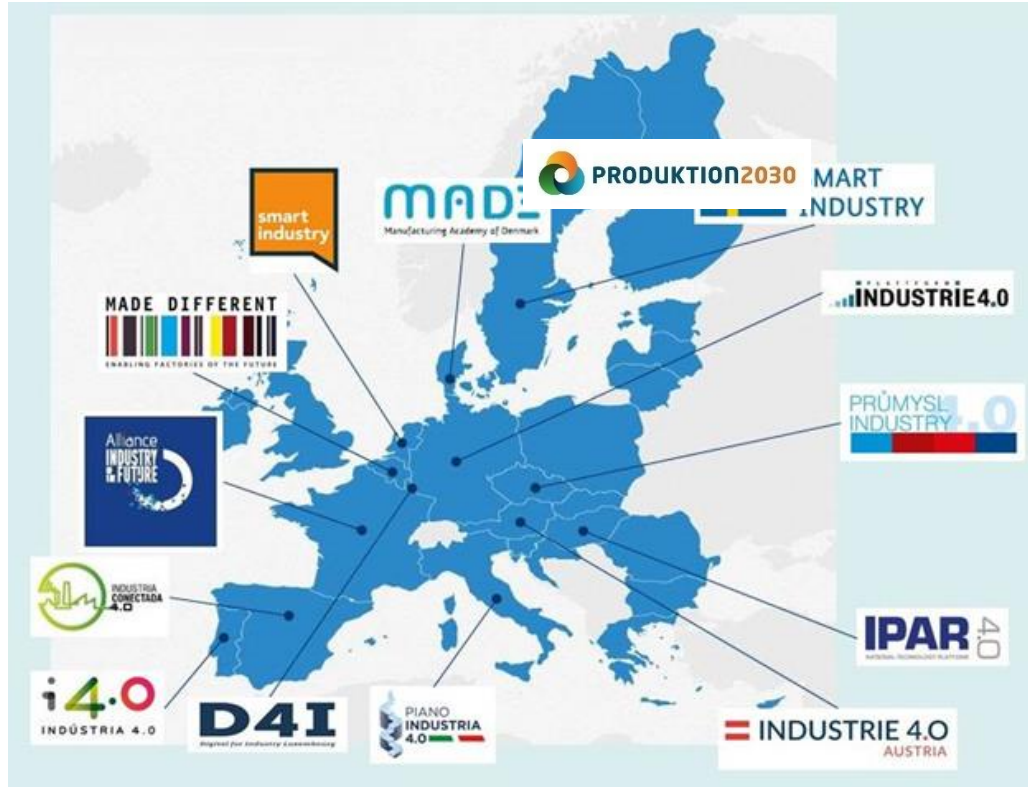

# Analysis and internationalization

Produktion2030  
part of a European  
platform for  
Industry 4.0

## Results: 2013 - 2018

19  
universities

>500  
manufacturing  
companies

230  
PhD students

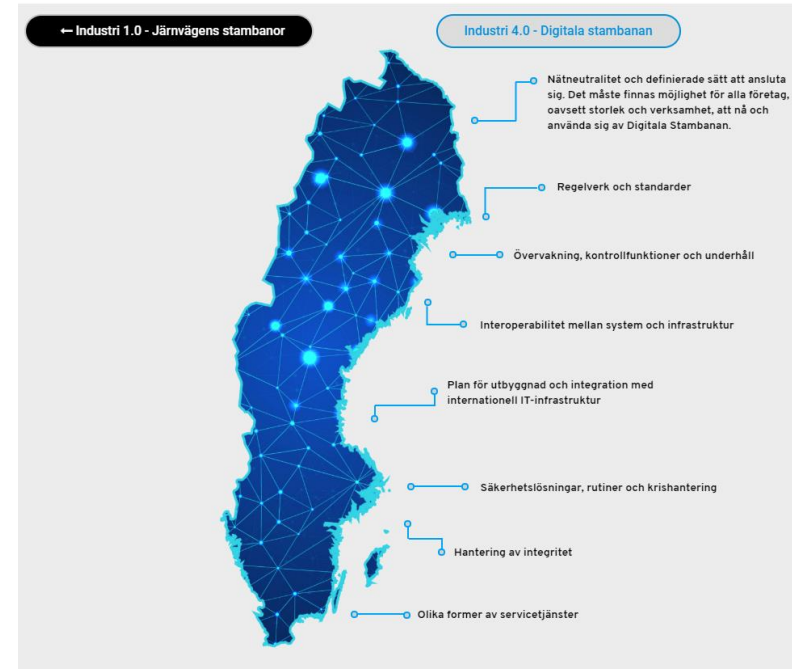

300  
SME:s

# What lies ahead: 2019 - ...

## New focus areas in Produktion2030:

- Standardisation
- Platforms - digitalizing value chains
- Testbeds – digital and connected
- Training and life long learning

# Thank you!

Cecilia Warrol

Programme Director, MSc., MBA
