

## Daikin Europe, a sustainable industry leader

### Our Mission

Air is essential to our existence. It has always been Daikin's mission to make the air we breathe and live in the best possible kind of air. Our innovative products and solutions are designed to improve people's health and well-being and reduce the environmental impact of heating and cooling. By 2050 Daikin aims to be carbon neutral throughout the full value chain and the full life cycle of its products and solutions.

### About us

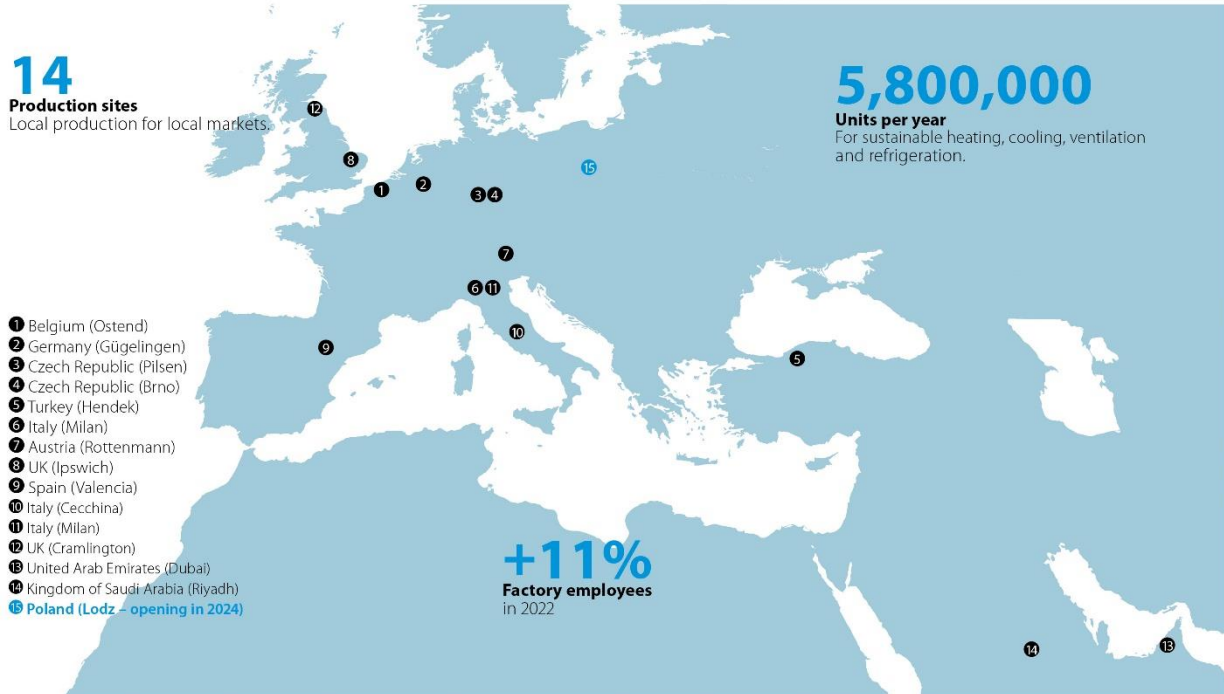

Daikin Europe is a subsidiary of the global group Daikin Industries Ltd. and the leading provider of heating, cooling, ventilation, air purification and refrigeration (HVAC&R) technology. Daikin designs, manufactures, and brings to market a broad portfolio of products, maintenance services as well as turnkey solutions for residential, commercial, and industrial purposes in Europe, Middle East, and Africa.
